I am a student in interaction design at l'École de design Nantes Atlantique.

Working experience

 **Toboggan Design - Montréal** Fall 2016
Interaction and game design intern I worked on the creation of a game for preschoolers based on the universe of the expo Bulding Buddies.

 **Lucion Media - Montreal** Summer and Fall 2016
Interaction design intern and freelance Working as an interaction design intern at Lucion, an interactive media company. I worked on Billie, a light painting project and worked as a freelancer on the lighting of the Jacques Cartier Bridge in Montreal.

 **Freelance** Summer 2015
Freelance web designer Working as a freelance designer as well as working on personal projects like newtonswars.com

 **JYMEO - Nantes** January 2015 - June 2015
Internship in web and UX design I created responsive design of the different websites of the company such as tirecomp.com and other company's websites. I also learned the Scrum Method.

 **La Cordée - Montréal** April 2014 - December 2014
Bike and ski salesman La Cordée sells different outdoor products. I worked in the bicycle and ski department as a floor salesman.

 **Écoquartier - Montréal** Summer 2013
Green Patrol The objective of the green patrol is to raise public awareness about the environment. I was patrolling with my partner to speak with people in parks and in the street.

 **Laval Rowing Club** Summer and fall 2012
Rowing teacher I taught people, children and adults, how to row.
